The antecedents for the added last two lines in the basic claims 1 and 5 may be found mainly in Paragraph 0026 and also in Paragraphs 0006 and 0044 of the specification. These lines are added to satisfy the Examiner by further restricting the claims, but they may be stricken if found objectionable in any way.

In view of the impending May 26th deadline for bringing the application in condition for allowance, it will be highly appreciated if the Examiner's reply and possible counter suggestions are communicated to the undersigned without delay telephonically or via the Fax numbers listed below.

Respectfully submitted by,
